DIGI LAPTOP STAND

U96113BL, U96113RD

Experience ultimate flexibility with the UDG DIGI Laptop Stand, designed for mobile DJs and music producers. Its fully adjustable height, angle, and 360-degree swivel tray accommodate laptops, tablets, or small controllers up to 18 inches. Featuring an anti-slip mat and rubberized edges, it ensures your gear stays secure and scratch-free. The tray's design promotes optimal airflow to prevent overheating, while the removable sub-tray offers additional space for essential accessories like USB hubs, external hard drives, or sound cards. Portable and easy to set up in either the C or Z configuration, it folds flat for effortless transport and comes with a protective cover making it the perfect companion for your gigs.
