AMNESIA 50TH YEAR ANNIVERSARY DIGI HARCASE SMALL

UB0028418YL

50 years of Amnesia Ibiza. Half a century of chaos, culture, and unforgettable nights. We don't celebrate that quietly.

This special edition drops in a bold yellow shell—built to stand out in the booth, backstage, and on the move. Same DNA. Same protection. Just louder.

Designed for DJs who keep it tight and travel smart, this hardcase locks down your essentials—USBs, hard drives, audio interfaces, compact gear. Small footprint, serious protection.

Durashock molded EVA on the outside. Shock-absorbing egg-crate foam on the inside. Your gear stays safe from impact, scratches, and the unpredictable reality of DJ life.
